## Statement on Senate Action To Block a Vote on the Nomination of Bill Myers To Be a United States Circuit Judge

*July 20, 2004*

Today a minority of Senators once again used obstructionist filibuster tactics to block a vote on an outstanding nominee to the United States Court of Appeals. Bill Myers has had a distinguished career as a public servant and practicing attorney and enjoys widespread support from across the political spectrum, yet he has been denied a simple up-or-down vote.

These tactics are unfair to Bill Myers and unfair to the American people. Bill Myers has the support of a bipartisan majority of Senators and would be confirmed if given an up-or-down vote. He would be

an asset to the Ninth Circuit, which is seriously overworked and in need of more judges. He would fill a seat that has been designated a judicial emergency by the Judicial Conference of the United States. More Americans will be denied speedy access to our justice system by the obstruction of a few.

I continue to call on the minority in the Senate to stop playing politics with the American judicial system and give judicial nominees the fair treatment they deserve and the American people expect.

## Remarks on Signing the Project BioShield Act of 2004

*July 21, 2004*

Thank you all. Mr. Speaker. Please be seated. Thanks. Good morning, and welcome to the Rose Garden.

On September the 11th, 2001, America saw the destruction and grief terrorists could inflict with commercial airlines turned into weapons of mass murder. Those attacks revealed the depth of our enemies' determination but not the extent of their ambitions. We know that the terrorists seek an even deadlier technology. And if they acquire chemical, biological, or nuclear weapons, we have no doubt they will use them to cause even greater harm.

The bill I am about to sign is an important element in our response to that threat. By authorizing unprecedented funding and

providing new capabilities, Project BioShield will help America purchase, develop, and deploy cutting-edge defenses against catastrophic attack.

This legislation represents the collective foresight and considered judgment of United States Senators and Members of the House of Representatives from both political parties, many of whom experienced bioterror firsthand when anthrax and ricin were found on Capitol Hill. It reflects 18 months of hard work and cooperation by many dedicated public servants in Congress and in the White House. It sends a message about our direction in the war on terror: We refuse to remain idle while modern technology might be turned against us; we
